

# TECH LAND

## How Sweet it is

June 5, 2017

Getting to know Chrome 8:30-11:30 AM

Come explore and find your way through the forest of Chrome! We'll make it easy to understand and navigate. Take a walk through the Chrome app store, explore tips for your Google email, and figure out what cool tricks work in your Google drive. This is just the edge of the forest you'll explore during this session. Walk away feeling like you've got this forest called "Chrome" under control and you're in charge of it! Bring your own device or multiple devices! Laptop or chromebook are best but ipad and phones will work also. Be sure to have Chrome downloaded on your device. If you need help with this, please arrive early.

Exploring Google Drive 12:00-3:00 PM

Take a trip across Google pass with us! See Google sheets, forms, docs, and slides on the pass. Test out what each one can offer you in terms of teacher production and classroom integration. It will be a fun slide through the pass! We'll look at how to create tools that can be used to assist students as well as interact with parents and keep yourself organized. At the end of the session you will be a pro at passing through Google Drive!

Explore the Tech Trail 8:30-3:00

Explore amazing tech that exists for free or minimal cost! Take a look at options that exist on Chrome with apps, add-ons, extensions. Test how those new tools work for you as an educator to improve productivity as well as how they work to make your students successful in learning. Too many tools and never enough time! Explore eye candy.....take a peak at what fun ipad "toys" exist. Interact with virtual reality goggles and apps and see what options exist for your students to become a part of the world!. Finally see what techy sites live on the wide world web and are available to you to make learning even more fun in your classroom.

Anybody tired yet? This will be a fast-paced day with lots of hands-on experiences. Come ready to learn and have FUN!
