

# Easter Is Coming!

Dear Parents/guardians,

We will be having some Easter fun in the ECE classroom. I need your help! Please send 1 bag of wrapped candy or fruit snacks and/or 1 dozen plastic eggs for our egg hunt. I will supply the drinks and snack for the party and the hardboiled eggs and materials for dying them ☺. Our party will be on April 13th so please send eggs and candy by April 10th.

I plan to take advantage of the holiday theme to talk about colors, positional concepts (over under beside behind below on top etc.) We will be creating some fun crafts using scissors, glue, paint etc. to strengthen our fine motor skills and creativity! We have been using a lot of gross motor skills such as jumping, dancing, throwing and aiming at targets while addressing language and social skills like turn taking this month. We have also been really busy with skills assessments and behavior lessons. Our 5 year olds have been working very hard to perfect their name writing, counting, and alphabet skills. The students have had CABIN FEVER! I cannot wait until we can spend more time outside and run out some excess energy ☺

If any of you (or grandparents) would like to volunteer an hour in the classroom or playground before the end of the school year, let me know as soon as possible so I can get you the volunteer handbook and the request to visit forms. We are a special education program and we value the privacy of all our families. For this reason we have a protocol to follow for all our guest visitors. I am sure you understand ☺
